

Electronic Fluorescent T5 Strip Lighting

SUPER ENERGY EFFICIENT

Saves 60% more energy than equivalent wattage T8 magnetic ballasted fluorescent
Complies with minimum energy performance standards • Individually switched

- SFT5-13** (13 watts) 573mm
- SFT5-21** (21 watts) 905mm
- SFT5-28** (28watts) 1205mm
- SFT5-35** (35watts) 1505mm

SFT5 CONNECTORS

- SFT5-C150** Connector cable (150mm)
- SFT5-C300** Connector cable (300mm)
- SFT5-C600** Connector cable (600mm)
- SFT5-C1800** (1800mm) Power supply cord
- SFT5-C001** Direct Connector
- SFT5-PLUGS** 1 pair of re-wireable plugs.

- Provide continuous lines of light.
- Very low heat output makes them ideal for Display Cabinets. Install separately or join with optional cables. Ideal for linking around corners, furniture etc Small profile, low heat.
- Long life bulbs T5 = 10,000 hrs
- Built in Electronic Ballast with very high energy efficiency.
- Supplied complete with diffuser.
- Link up Electronic Fluro Strip Lights in any combination you choose to a maximum of 252w.
- Mounting brackets included.
- Australian Approved connector cables NSW 22616

ECG must not be installed on a circuit with inductive loads.

Coloured tubes available T5

- Daylight tubes available
- SFT5 - DL13** (13watts)
 - SFT5 - DL21** (21watts)
 - SFT5 - DL28** (28watts)

- Cool White tubes available
- SFT5 - CW13** (13watts)
 - SFT5 - CW21** (21watts)
 - SFT5 - CW28** (28watts)
