

Cable Tie Tensioners

Cable Tie Tensioner - Max 4.8mm

Cable tie tensioning tool speeds up cable tie application. Ensures correct automatic cut-off. Eliminates sharp edges on cut ties. Maximum tie width 4.8mm.

- Length: 165mm
- Weight: 310g

KTT

Cable Tie Tensioner - Max 7.8mm Heavy Duty

Heavy duty cable tie tensioner for heavy duty ties. Maximum tie width 7.8mm.

- Length: 205mm
- Weight: 400g

KTT3

Stainless Steel Tie Tensioner

This is a low cost way of tensioning stainless steel ties, ideal for use by the casual user. It is a slotted screwdriver, and the tie is wound up and tensioned, and must be cut off in a separate operation.

- Length: 235mm
- Weight: 90g

SSTD

Stainless Steel Cable Tie Tensioner

This tensioner has been through years of development at CABAC, to create a robust tool at a reasonable price.

- Automatically tensions and cuts ties in one operation
- Adjustable tension for standard 4.8mm, and heavy-duty 7.8mm ties
- Low friction to ensure reduced effort

These tools have to grip stainless steel, and as such the grip pads do wear. The general life of a set of pads is about 5000 ties. The tool is supplied with two spare grip pads, and one grip spring. Additional spare grip pad and springs are available in a kit.

- Length: 180mm
- Weight: 660g
