

Pay TV Strippers and Coax Crimper

Economy Coax Stripper

- Ideal for common coaxial cable types e.g. TV cable from 4.8 to 7.5mm diameter
- Strips without adjustment of the blade

KOAX1

Two Blade Coax Stripper

- Strips RG58 / 59 / 6 / 62 / 6 Quad Shield / 3, 4 and 5 Core
- Strips the inner and outer jacket in one operation
- Cuts the shield the same length as the inner strip. Note the KOAX3 cuts the shield an intermediate length
- Rotate the 'V' block for differing strip diameters
- Stripping distance can be moved by adjusting the inner blades
- Adjustable using the self contained Allen key

KOAX2

Three Blade Coax Stripper

- Has 3 blades to strip the inner, cut the shield and strip the jacket in one operation
- Strips RG6, RG58 and RG59
- Blade height is adjustable with self contained Allen key

KOAX3 Coax Stripper

Two Blade Stripper

- For stripping the coaxial jacket and inner conductors in one operation
- Stripping distance can be changed if user moves one of the blades
- Adjustable, using self contained Allen key
- The V-block can be reversed for differing jacket sizes

RG11 STRIPPER RG 11 Coax Stripper

Ideal Stripmaster 0.75 - 6mm²

The Ideal 45-092-341 Stripmaster is a high quality electrical conductor stripping tool for the discerning tradesman. The stripping tool has a one step action for increased productivity and a spring-action motion that reduces operator fatigue. The precision knife blades provide clean, accurate stripping. It accommodates wire sizes 0.75, 1, 1.5, 2.5, 4 & 6mm².
