

POSSUM GUARD KIT 38MM ID

Part Number: PPG

Features

- A unique product developed by CABAC and now used by many authorities
- Swivelling jacket around cable stops possum walking along it
- Made from low density Polyethelene 14
- Secured in place with cable ties
- Fits overhead line bare conductors from 10 sq.mm - 240 sq.mm

Possum Guard 38mm ID x 1m

A unique product developed by CABAC and now used by many authorities. It simply works by creating an unstable swivelling jacket around the overhead cable, and the possum falls off the cable if he walks along it. Simply attach a number of plastic swivels around the conductor, located in place with a cable tie, and your possum problems disappear.

Technical Data

Material: Polyetelene 14, low density
Volume resistivity: ASTM D 257>10¹⁶

In support of our policy of continuous product improvement we reserve the right to change materials and specifications without notice. Drawings, where used, are not to scale. All dimensions are in millimetres and sizes given are approximate. Where possible, technical MSDS data sheets are made available on the website.
