

DOWNLIGHTS

Davis Lighting provides high quality versatile downlighting at a price and performance levels to meet a wide range of budgets. The use of precise, optically designed reflectors provide excellent glare control and good light output, catering for all facets of wall washing, accent lighting, task lighting and general lighting. Our downlight mounting arrangements allow for consistently fast installation every time.

SHERATAN COMPACT FLUORESCENT DOWNLIGHTS

The Sheratan is a compact fluorescent recessed mounted range of downlight that are available in both 150mm & 200mm models. There are four (4) reflector styles. Open Bottom, Drop Glass, Recessed Glass, and Cross blade. The Recessed Glass model is IP44 rated which makes it suitable for bathrooms. The reflectors are available in either matt or specular finish. The downlights are designed for lamps to be mounted in the horizontal position. The lamps are TC-D type when used with conventional control gear & TC-DE when used with electronic control gear. The downlights may be supplied for hard wiring or fitted with a flex & plug. Both 150mm & 200mm diameter models have three (3) ceiling fixing brackets to ensure no movement of the downlight after installation. The fixing clips are stainless steel.

RECESSED MOUNTED

150mm (6") Open Downlight

x designates reflector type (s) specular or (m) matt.

- SHS113PLx** 1/13w TC-D
- SHS118PLx** 1/18w TC-D
