## 1AC-I VoltAlert™

Non-contact voltage detection  
you can rely on.

### Technical Data

**New**

1AC-I is the latest product in the VoltAlert™ ac non-contact voltage tester family from Fluke and is designed to be pocket-sized and easy to use. Just touch the tip to a terminal strip, outlet, or cord. When the tip glows red you

know there's voltage in the line. Electricians, maintenance, service and safety personnel, as well as DIY, can quickly test for energized circuits and defective grounds on the factory floor, in the shop, or at home.

### Features and benefits

- **NEW!** Always on, uses special low power circuitry to sustain battery life and for added dependability
- **NEW!** Includes innovative 'Battery Check' button function to ensure battery and unit are in good condition when using the tester, giving peace of mind any time you are testing\*
- Voltage detection of 90 to 1000 V ac, a wide range to suit a broad spectrum of residential, commercial and industrial needs
- CAT IV 1000 V overvoltage rated product for best-in-class added user protection
- Integrated clip design, optimized for pocket storage in a wide range of clothing thicknesses
- Powered by 2 AAA batteries (included)
- Two-year warranty
- Rugged, reliable, and is built with the quality and accuracy expected from a Fluke tool

\*Use of Battery Check function is optional and for convenience only, it is not intended as a substitute for checking the unit on a known live source before and after use.
