Note: Modules 150 and 250 are the basic elements that allow for any other kind of combination.

All the enclosures can be enlarged with modules 150 and 250, even after installation.

Modules 150 and 250 are basic systems that can be enlarged in any form of combination with additional 150 and 250 modules.

Combinations may also include modules 400, 550 and 700 to speed up and simplify the installation process.
