

Meter isolation solutions

Meter isolation simplified

Hager are pleased to announce the release of our meter Isolator packages as a solution to assist contractors in meeting local authority requirements. Designed to be mounted on the meterbox panel, these packages come supplied within a compact Hager GD enclosure, are equipped with a single or three phase D curve circuit breaker and an engraved label for ease of identification.

Meter isolators

Catalogue numbers:

GD163AQ - Single phase

GD363AQ - Three phase

Specifications:

Components

GD163AQ Single phase:

- GD102T enclosure
- NDN163 D curve circuit breaker
- PFGPF10P pole filler
- Engraved self adhesive label

GD363AQ Three phase:

- GD104T enclosure
- NDN363 D curve circuit breaker
- PFGPF10P pole filler
- Engraved self adhesive label

GD10xT enclosure specs:

Mechanical

- IP40 with door installed

NDN circuit breaker specs:

Regulatory

- Comply with AS/NZS 60898 & IEC 60947-2

Electrical

- D curve
- Breaking capacity - 10kA
- Voltage rating - 230/400V AC
- Current rating - 63A

Mechanical

- Connection capacity:
Rigid conductor - 35mm² max.
Flexible conductor - 25mm² max.

		Enclosure size
