FEATURES & BENEFITS

Flexible combinations

The Super Match range offers a wide range of possible indoor unit and outdoor unit combinations, for a customised air conditioning solution for your space.

DC inverter technology

With 3D Direct Current (DC) inverter technology, Super Match air conditioning units are able to operate with a high level of energy efficiency, while delivering rapid heating and cooling as needed.

Anti-corrosion coating

The Blue Fin coating on the evaporator is hydrophilic for quick water drainage and resistance against corrosion.

R32 refrigerant

This Super Match outdoor unit uses a next-generation R32 refrigerant, which carries heat efficiently and has a lower Global Warming Potential than R410A.

Faster servicing

An easily accessible maintenance panel and service screen enable fast diagnostics.

Central controller

With an optional central controller, you can easily control individual or connected units, and schedule air conditioning to turn on and off automatically.
