Sonos Electronic Sounder, Red base with Red LED beacon on top, 17-60VDC, 32 tones, dB range 93-106, IP65

The Sonos range is a general purpose electronic sounder suitable for many industrial applications such as warehousing and process. Featuring the TimeSaver base where connections are made to the base during the initial wiring phase which results in faster and more reliable installation. The sounder head 'twists and clicks' into the base on commissioning, avoiding the wiring and connection problems associated with traditional sounders. With weatherproof protection to IP65 and can be used in all locations both indoors and outdoors.
