UNIRAIL (EQUIPMENT MOUNTING RAIL)

Esco's extruded high tensile aluminium rail, finished in satin clear anodise is the basic component for the Unirail system. Unirail may be readily fixed directly to a wall surface or on stand-off wall brackets. The rail will accept not only Esco Unirail equipment mounting accessories, but also many other brands of rail accessories.

MEDICAL AREA SIGNS

Esco's electrical area signs have been produced to comply with AS/NZS3003. The 190mm x 90mm plate is readily fixed to the wall surface by a self-adhesive backing. Each sign is provided with a "write-on" removable label for recording the test date and the tester's signature.
