RAMELEC

Company Profile

Ramelec Electrical Division commenced operations in 1991. We are 100% Australian owned with a nation-wide network of branch and regional offices with technical sales, support staff and warehouses. This means that we have the logistics in place to provide fast and effective delivery of standard stock items to our customers anywhere in Australia.

Today, Ramelec is a strong, dynamic National Company built on learning and understanding what our customers needs are. We pride ourselves on being completely focused on the products we represent and the markets and customers we serve.

The principal's products we represent are highly regarded as market leaders in their respective fields and with their assistance our goal is to be the supplier of choice for our customers through the provision of:

Reliable and Quality Products

source the best products locally and overseas

Responsive Service

pride in customer service and delivery

Cost Effectiveness

flexibility in solutions for products and services

Industry and Technical Knowledge

offer more than just selling a product

We promote a select range of market leading Industrial Electrical products that serve the following markets and customers:

- Industrial/Mining/Oil & Gas
- Government
- Consulting Engineers
- Wholesalers/Resellers/Integrators
- Switchboard Builders
- Electrical Contractors
- Utilities & Transport
- Machine & Packaging OEM's

RAMTIGHT

Ramtight flexible steel conduit has been designed and manufactured to the highest standard ISO 9001:2008 and complies with AS/NZS 2053.8. This ensures you are getting a high quality product which is suitable for use in all arduous areas including industrial and hazardous areas.

Ramtight Flexible conduit is manufactured from a galvanised steel core with a nylon sealing core fitted between the spiral cores and is covered with a flexible flame retardant PVC jacket. Ramtight is also resistant to sun light and oil and has an IP66 rating when fitted with Ramtight nickel plated brass or steel fittings.

Ramtight's construction allows it to be very flexible and gives it the ability to both absorb vibration and continuous movement making it ideal to use on conveyors and automatic machinery or wherever heavy duty mechanical protection is required.

Flexible Conduit

RAMTIGHT

Standards AS/NZS 2053.8

Galvanised steel core
Nylon sealing core fitted between the spiral cores
Flexible flame retardant PVC jacket
IP 66
Temperature range -10° to 70° C
Sizes 16mm - 40mm constructed in square lock
Sizes 50mm - 100mm constructed with interlock strip for added strength

Part No	Description	Pack Qty
RT-1630-B	16mm Black Conduit	30M
RT-2030-B	20mm Black Conduit	30M
RT-2530-B	25mm Black Conduit	30M
RT-3230-B	32mm Black Conduit	30M
