

Magic Power Gel

The unique bi-component gel in a single bottle, with superior dielectric, sealing and thermal characteristics, re-enterable and re-usable!

- Very sticky
- Strong self amalgamating characteristics
- Re-usable as well as re-enterable, even after long working periods
- It doesn't give any waste
- Non toxic and safe

Insulating and Sealing Gel

Re-enterable

Re-usable

**Ray
tech**

Gel: UL 94-HB

Dielectric strength:
>23 kV/mm

Cross linking time:
fast (about 15 min. at 25°C)

Volume resistivity:
>2 . 10¹⁵ Ω cm

Working temperature:
-60°C / +200°C

Overload temperature for short periods:
up to 250°C

Stabilised for:
mould - UV

Degree of protection:
IP68 (in proper casings)

Stickiness

- Exceptional sealing properties in any condition
- Better resistance to pressure
- Effective even in vertical or ceiling applications

Self-agglomerating

- Once cross linked it perfectly adheres on itself characteristics to get an homogeneous and compact mass
- It can be therefore applied in multiple layers

Zero waste

- Due to the nature of the product waste is eliminated; even residual product can be saved and used for the next application
- Also any left over product maintains its high performance characteristics

Single bottle

- Highly useful
- The most compact packaging
- Less space occupied in the toolbox
- Both components in the same packaging

Magic Power Gel

| Product | Colour | Package type | Total quantity |
|---------------------|--------|---|----------------|
| Magic Power Gel | ● | 1 single, bi-component bottle 1 small basin - 1 mixing spoon | 1000 ml |
| Magic Power Gel 500 | ● | 1 single, bi-component bottle 1 small basin - 1 mixing spoon | 500 ml |
| Magic Power Gel 250 | ● | 1 single, bi-component bottle | 250 ml |
