REDBACKLADDERS

**FIBREGLASS & ALUMINIUM
HEAVY DUTY LADDERS**

WWW.REDBACKLADDERS.COM.AU

Redback Ladders manufacture superior quality fibreglass and aluminium ladders at a competitive price.

We design and manufacture our entire range of ladders to Australian and New Zealand Standards.

Independent testing on each design is undertaken by a NATA approved laboratory to ensure you get strength, durability and peace of mind with your investment in our product.

Redback ladders are built strong to handle repetitive, everyday use making them the perfect choice for trade or commercial applications. All Redback Ladders are manufactured with an industrial rating to withstand loads of up to 150kg, one of the highest load ratings available.

Redback Ladders - Strength, durability, and dependability at an affordable price.

What makes a Redback Ladder the ladder of choice?

- Redback Ladders are designed & manufactured to comply with Australian & New Zealand Standard AS/NZS 1892.3:1996
- Redback Ladders are independently tested in a NATA approved facility;
- Redback Ladders are packed with features including strong construction, additional bracing, riveting and reinforcing;
- Redback Ladders are manufactured to withstand loads up to 150kg and classified with an industrial rating - one of the highest ratings available

Why choose a Redback Fibreglass Ladder?

Redback fibreglass ladders decrease the risk of electrocution by providing isolation between the user and earth and as such are highly recommended for use in an electrical environment. Fibreglass ladders are compulsory in most states when operating in an electrical environment.

How do I select a Redback Ladder?

If selecting a Redback Step Ladder, it is recommended that you choose a ladder that is approximately 0.6 metres shorter than the height that you wish to reach. If selecting a Redback Extension Ladder, it is recommended that you choose a ladder that is approximately 1.0 metre longer than the height that you wish to reach.

Where do I purchase my Redback Fibreglass Ladder?

Redback Fibreglass Ladders are distributed nationally throughout all states within Australia.

Please refer to the Suppliers page on our website for specific locations, wholesale outlets and stockists.
