

RHEEM LAZER[®] ECO

Energy reduction

Cost-effective Boiling Water

Rheem Lazer Eco is a cost-effective boiling water unit designed for a wide range of installations such as the workplace or sports club.

Economic at its Core

It's easy to use with a one-touch button to switch on "Eco Mode" which, when activated, automatically turns the Lazer Eco off after two hours, reducing power consumption.

The indicator light shows red when heating and green when in energy conservation "Eco Mode", so you can see what it's doing at a glance. "Eco Mode" can reduce energy use by up to 40%.²

Easy to Clean

The white powder coat finish is easy to clean and the Lazer Eco comes in 3, 5, and 7.5 litre models delivering up to 50 cups¹ ready to use and up to 123 cups¹ of boiling water an hour.

Automatic safety devices safeguard the unit against boiling dry and it also features automatic calibration of the boiling point for the altitude at which the unit is installed at.

Eco-mode is a unique one button control that gives you boiling water with reduced energy consumption.
