

Associated Gaskets

Key Benefits & Features

- Excellent electrical insulation properties
- UL Listed
- Compatible with most insulation systems
- Good chemical & water resistance
- 24 month shelf life for reduced wastage
- Available in both aerosol and liquid forms
- Rated for use in 180°C (Class H) insulation systems
- Air dries rapidly and can also be baked
- Provides a bright surface finish that protects against leakage currents and metal oxidation
- Manufactured in Europe in accordance with strict EU and International quality controls
- Aerosols provide a consistently smooth and even finish with minimal thinners added to the mix
- Colour coded lids for easy identification
- Aerosols come in larger 400gm cans which reduces the number of times you need to switch cans and increases available product by reducing the amount of "almost empty tins" by 25% (compared to the common 300gm aerosols)

Elmotharm 009-0008 Air Dry Varnish

AG is proud to offer our Elmotharm 009-0008 Air Dry Varnish in a wide range of colours and forms. This high quality varnish is produced in Europe by Elantas and combines ease-of-use and reliability with consistently high performance.

Elmotharm 009-0008 is an alkyd resin based, solvented, air-drying varnish with good tank stability and anti-tracking qualities, excellent electrical properties and a user friendly fungicide.

Most commonly offered as an alternative to the no longer available Isonel 300 range, AG's Elmotharm 009-0008 varnishes are widely used in a range of electrical applications. These include the final coating of electric motors, the impregnation of small transformers and coils which require a rapid air-drying film and the coating of insulating boards and mouldings which require a good anti-tracking finish.

The versatility and long shelf-life of Elmotharm 009-0008 varnish makes it an ideal option for repair work where applications vary and demand is up and down. Recognising this, AG is also committed to carrying local stock of this quality insulator in all our branches to ensure it's available for quick delivery with no minimum order quantities.
